

CERTIFICATE

CARB - 12-04-25-01

In accordance with the provisions of Third Party Certification stipulated within the scope of the **Final Regulations Order (FRO)** of the Airborne Toxic Control Measure (ATCM) as initiated by the **California Air Resources Board (CARB)**, it is hereby established that the product

**Plywood - panel type urea formaldehyde glued plywood
in the thickness range 12 mm – 35 mm**

manufactured by

EURIV Bt.

at its manufacturing site

EURIV Bt.

Janosmajor 1, H-8011 Seregelyes, Hungary

complies with the emission standards of **Phase 2** acc. to table 1 in FRO, § 93120.2 (a) and that the manufacturer meets the requirements with view of Quality Assurance, as set forth in the FRO, Section 93.120,12 Annex 2 (a). The approved Third Party Certifier (TPC) of the Entwicklungs- und Prüflabor Holztechnologie GmbH (EPH) with the Executive Order W-10-010 has performed the initial inspection of the manufacturing site and the company-internal production control (FPC) and made an evaluation of the FPC.

The initial-type testing of the product has been carried out by an accredited test laboratory. The results of the small scale tests correlate to the results of the secondary method.

This evaluation is based on the monitoring and the test report:

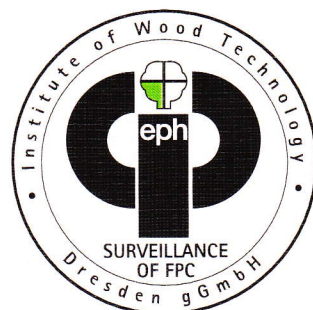

1. TPC Supervision Report dated April 25th, 2012

The manufacturer has contractually agreed upon the external supervision to be conducted exclusively during the time of production relating to order including sampling at the place of manufacture.

This Certificate was issued on April 25th, 2012 and is in force as long as the continuous supervision is carried out by the EPH, unless the requirements and conditions under which this Certificate has been issued will have changed considerably.

April 25th, 2012
